

OVERVIEW

The following review is based on the requirements outlined by the City of Toronto's Changing Lanes Zoning By-law and other criteria set forth by the municipality. These items determine a property's eligibility for an as-of-right laneway suite and identify property-specific challenges. This review is intended as a preliminary verification only, and is subject to confirmation by the city through a formal zoning review. If your property does not conform, it is possible to seek a minor variance at the Committee of Adjustment. We strongly encourage working with an experienced professional when seeking approvals for laneway suites.

ADDITIONAL NOTES

This property appears to be a great candidate for a laneway suite in conformance with the current by-laws. Our records indicate you could potentially construct a 2-storey suite. All dimensions and assumptions will need to be confirmed via a survey. Additional work and permits may be required depending on protected tree status.
